T3 Office Recycling Solutions Purchases Building in Rancho Cordova, California

T3 Office Recycling Solutions has purchased the building that is housing its operations in Ranch Cordova, California. The building is approximately 16,000 square feet in size and is located at 2583 Mercantile Drive. The building has been occupied under lease by T3 for the past two years. Operations housed within the building include sorting and processing of new and used printer cartridges, data storage media and other supplies and materials acquired from customers; warehousing and distribution of supplies; sales; and company administration.

Company representatives stated that by owning the building there is more flexibility to personalize and modify the building that will improve processing of customer materials, make the operation more efficient and eco-friendly, as well as to enhance the work environment for employees.

"By purchasing our building we are making a long-term commitment to our operation here in Rancho Cordova," said Buzz Raley, President and CEO. He continued, "With ownership of the building, we have a lot more operating flexibility and the company is paying into the building instead of paying rent, which benefits the owners and employees."

Since its founding in 1997, T3 Office Recycling Solutions has been a pioneer in California's efforts to promote full-circle recycling solutions for printer and media supplies. T3 provides a new revenue source for organizations with surplus unused supplies such as OEM (Original Equipment Manufacturer) toner and ink cartridges, drums, copier supplies, printer parts and data storage media. Surplus materials are commonly generated because they are no longer needed due to printer fleet or other equipment refresh, overstock, expiration or through liquidation or bankruptcy. When T3 acquires the surplus supplies they are redistributed to a network of dealers, wholesalers and other organizations with equipment in need of the same supplies. In addition to the financial benefits to the organizations served by T3, surplus supplies and materials that normally would be destined for a landfill are put to good use.

T3 Office Recycling Solutions is California's leading recycler of new and used toner cartridge, ink cartridge and data storage media supplies. The company works with private businesses, state and federal government agencies and non-profit organizations to develop customized revenue-generating and environmentally-friendly recycling solutions. T3 is certified in accordance with the R2:2013 Responsible Recycling standard that incorporates certification also under ISO 14001:2004 for Environmental Management Systems as well as under OHSAS 18001:2007 for Occupational Health and Safety. The Sacramento County Board of Supervisors named T3 The Sustainable Business of the Year in 2013.
